DYLAN MESTYANEK
FULL STACK SOFTWARE ENGINEER

Projects

Sauti Databank
Dec. 2019 to Jan. 2020

React | GraphQL | Node | Express | Knex | MySQL | Nivo

Graph application created for the Non-profit organization, Sauti, that displays commodity trading tendencies along the borders of Southeast Africa.
- Developed a function to dynamically shape the data needed to cross-filter user demographic information in a team of 5 during 8 weeks
- Overhauled original codebase and refactored Node REST API into GraphQL server
- Architected a durable React client to efficiently display foreign trader's data
- Front End Repository - https://github.com/Lambda-School-Labs/sauti-databank-fe
- Back End Repository - https://github.com/Lambda-School-Labs/sauti-databank-be

Voice Timer
Nov. 2019 to Dec. 2019

HTML | CSS | JavaScript

Vanilla JavaScript timer that can be controlled using voice recognition.
- Implemented Google Chrome's speech recognition to manipulate timer functionality
- Constructed elegant UI composed of timer duration, return time, and media controls
- Designed a form to utilize preset and custom timer values
- Repository - https://github.com/dylanmestyanek/JavaScriptTimerAndAlarm

Macro Calculator
Oct. 2019 to Nov. 2019

React | Redux | React Router | Axios | JWT

CRUD application that estimates the user's ideal daily calorie and macronutrient intake to support their nutrition goals.
- Utilized React Router to create a two-page application to display daily calorie goals and macronutrient breakdown amongst a team of 3 during 1 week
- Authenticated users within application with Axios and JSON Web Tokens
- Enforced efficient state management within application using Redux
- Repository - https://github.com/Build-Week-Macro-Calculators/Front-end

Experience

The Chop House
Line Cook
Nov. 2018 to Aug. 2019
- Trained an average of 2 newly hired back-of-house employees each month
- Ensured effective team communication to expedite order duration
- Enforced proper recipe execution, and cooperation of food safety procedures

Texas Roadhouse
Line Cook
Dec. 2017 to Apr. 2018
- Collaborated with up to 5 line cooks to deliver fresh, high-quality dishes
- Promptly corrected mistaken tickets and last-minute order adjustments
- Implemented an efficient kitchen flow to hasten order production

Sonic Drive-In
Assistant Manager
July 2016 to Sept. 2017
- Managed restaurant food and supply orders 3 times per week
- Tracked vendor invoices, time & attendance, and labor cost (Daily and WTD %)
- Assisted in a 6% labor cost reduction within 1 month
- Instructed and trained all new team members on company standards each month

Education

Lambda School
Aug. 2019 to Current

Certificate of Web Development and Computer Science

A 9+ month Computer Science & Software Engineering Academy that provides an immersive hands-on curriculum with a focus on computer science, and full stack web development.
